ANT KILLING BAIT
INDOOR & OUTDOOR

## PRECAUTIONARY STATEMENTS
### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by storage or disposal.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product kills the following ants: Argentine, Black Carpenter, Cornfield, Little Black, Odorous House and Pavement Ants.

**APPLICATION INSTRUCTIONS:**
To control ants around homes, ornamental gardens and flower beds. Always place ant stakes at locations inaccessible to children, pets and other non-target animals. Stake is designed to push easily into semi-soft ground or be laid flat on a hard surface indoors or outdoors.

**Outdoors:** Place ant stakes in areas where ants are seen. Place one stake every 15–20 feet of area, depending on severity of infestation. Place near cracks, crevices or other areas around the periphery of the home where ants may gain entry.

**Indoors:** Place ant stakes, hole side up, under sinks, behind appliances and along ant trails. If used in ground level cabinet, use child-proof fasteners on doors.

For continuous control of ants, replace all indoor ant stations after 3 months of use and outdoor ant stations after 6 weeks of use.

## A SMART WAY TO CONTROL ANTS

**AMDRO KILLS ANTS**
Ant Killing Bait destroys the entire ant colony, killing ants now and helping prevent their return.

- Bait attracts scout ants seeking food for the colony
- Scout ants take bait back home where it is eaten by queen and worker ants
- Colony stops reproducing and begins to die
- Weakened or destroyed colony can no longer infest your home

**STARTS TO WORK IMMEDIATELY. INDOORS AND OUT.**
